Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This action is a response to applicants' amendment and arguments filed August 22, 2003. The response is not deemed to be persuasive for the following reasons.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 24 is rejected under 35 U.S.C. 102(b) as being anticipated by Bendel et al (US Patent 4,959,068). The Bendel et al reference is used here as in the previous Office Action mailed May 21, 2003. The reference discloses each of the limitations recited in the claims. The function recited in the whereby clause is capable of being performed by Bendel et al since there's no structure difference between the claim and the reference.

The examiner believes that the rejections are proper and therefore remain.

Claim Rejections - 35 USC § 103

Claim 20 is rejected under 35 U.S.C. 103(a) as being unpatentable over Bendel et al in view of Granger et al (US Patent 5,458,616). The Bendel et al patent discloses each of the limitations recited in the claim except for the particular material. Granger et al teaches the use of aminoalkyl siloxane to coat a surgical needle. It would have been obvious to one having ordinary skill in the art to use aminoalkyl siloxane to coat Bendel et al since it is well known in the art and readily available.

Claims 22, 23 and 26-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Granger et al '616 or (Granger et al 5,258,013) in view of Bartrug et al (US Patent 6,025,025). The latter reference suggests using the known concept of coating metal using silicone coating having an interpenetrating network. It is within the purview

Art Unit: 3731

of one having ordinary skill in the art to look to Bartug et al for a silicone or a method in coating metal with silicone. Once the concept is known, it would not matter for what purpose the silicone-coated metal is used for.

The examiner believes the action is proper and the references alone or in combination meet the limitations of the claims.

For these reasons the action is made final.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
